COURSE REPLACEMENT

Students will be allowed to take approved courses as replacements if they meet all of the following criteria: (1) the course must have been taken at a recognized, accredited institution, (2) the undergraduate course content overlaps with a course required towards a graduate degree at SEBTS, and (3) the student received an A or B in the course.

Below is a sample of approved CORE replacements. For other courses and for students from other institutions, the student should contact the Registrar's Office for a complete transcript evaluation. Note: SCP Advanced Intensives are viable course replacements. For Greek and Hebrew, students should take the next level course in sequence and will receive credit for prior courses if the student earns an A or B in the higher level course.*
